# CUSTOM STREET NAMES

*Design your own street name sign unit.*

*Choose a sign blank, bracket, and finial to suit your taste.*

*See pages 13-14*

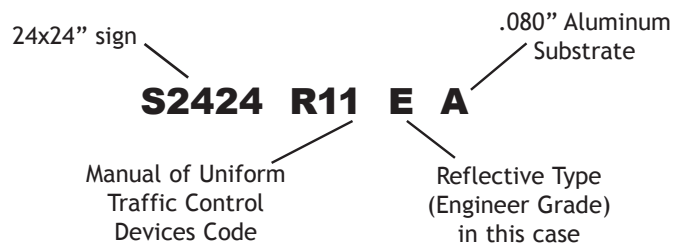

## Notice Regarding Traffic Signs

\*An asterik beside a sign might indicate multiple print colors, shape change, or specialized wording on signs. These signs may require additional fees for manufacturing.

Traffic Signs in this catalog are made from Engineer Grade Reflective on .080" thick aluminum unless otherwise noted.

## 6" STREET NAME SIGNS

STREET NAME SIGNS are 6" x various lengths up to 48" as needed. They are double faced with a white engineer grade reflective on either a green or blue engineer grade background. The primary copy is 4" tall series B letters and the prefix and suffix copy is 2" tall series B letters.

## 9" STREET NAME SIGNS • YEAR 2000 MUTCD COMPLIANT

STREET NAME SIGNS are 9" x various lengths up to 60" as needed. They are double faced with a white engineer grade reflective on either a green or blue engineer grade background. The primary copy is 6" tall series B letters and the prefix and suffix copy is 3" tall series B letters.

## METRO STREET NAME SIGNS

8" Upper and lower case C Series letters on High Performance Reflectives such as High Intensity Prismatic and VIP Diamond Grade combine to make the most effective street name signs available.

## BRITE-MAX POST REFLECTOR

Enhance safety by making signs more visible using the Brite-Max Post Reflector System! Each reflector is 30" long and they may be stacked for more effect. They can be used on U Channel, square, or wood post. Choose from 3M™ Engineer Grade, 3M™ High Intensity, 3M™ Diamond Grade™, or 3M™ Fluorescent Diamond Grade™ reflective sheetings. Mounting hardware is found on pages 14-16.

### Color Codes

RED (RE) FLUORESCENT YELLOW GREEN (FYG)  
WHITE (WH) FLUORESCENT YELLOW (FYE)  
YELLOW (YE)

### 3M Reflective Sheeting

|                |                   |
|----------------|-------------------|
| Engineer Grade | BA080E(RE)0330BM  |
| High Intensity | BA080H(RE)0330BM  |
| Diamond Grade™ | BA080D(RE)0330BM  |
| Fluorescent    | BA080DF(YG)0330BM |
| Diamond Grade™ |                   |

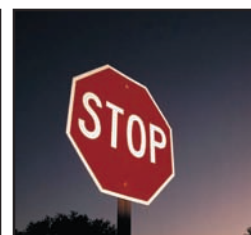

## HIGH PERFORMANCE SIGNS

Enhance safety as intersections and other dangerous roadway stretches by upgrading to High Performance Reflectives from 3M. 3M™ High Intensity Prismatic Grade Sheeting (ASTM Type IV) is three times brighter than conventional, enclosed lens sheeting. 3M™ Diamond Grade™ VIP Sheeting (ASTM Type IX) is ten times brighter. Both types of sheeting are backed by 3M's exclusive replacement warranty.

If graffiti is a problem, 3M Protective Overlay Film may be added to any 3M Reflective Sheeting.
